WORK EXPERIENCE

Software Development Engineer OYO

08/2021 - Present,

Achievements/Tasks

Automated generation of reconciliations , reduced eorts of sending manual recons during month end for various countries.

Created a new service for the patrons where they would be able to allot a certain number of inventory per month to be sold at a price plan (Deeply discounted/Free of cost) selected by them.

Opting this service will provide free room nights to gain more long term customers.

Created a generic reconciliation platform which was one stop solution for all the home and hotel business. This reduced dev eorts to develop on multiple stacks. Any New Bills/Charges which needs additional development eort was made configurable.

New Delhi, India [linkedin.com/in/ankitwin](https://www.linkedin.com/in/ankitwin)
