WORK EXPERIENCE

Software Development Engineer
OYO

08/2021 - Present, *Achievements/Tasks*

Automated generation of reconciliations , reduced eorts of sending
manual recons during month end for various countries.

Created a new service for the patrons where they would be able to allot a certain number of inventory per month to be sold at a price plan (Deeply discounted/Free of cost) selected by them. Opting this service will provide free room nights to gain more long term customers.

Created a generic reconciliation platform which was one stop solution for all the home and hotel business. This reduced dev eorts to develop on multiple stacks. Any New Bills/Charges which needs additional development eort was made congurable.
